

MS-700

Managing Microsoft Teams

Mixed Questions

Question Set 1

QUESTION 1

You work as a Systems Administrator for your company. The company has recently purchased a subscription to Microsoft 365.

All users in your company have a Microsoft 365 E3 license.

You are in the process of configuring Microsoft Teams.

You need to configure Microsoft Teams to ensure that users within your company can collaborate with users in a partner company. You plan to create guest accounts for users in the partner company.

Users with Guest accounts must not be able to invite other guests.

Only users in the partner company must be able to collaborate with your users by using Microsoft Teams.

Which of the following should you configure?

- A. The external sharing settings in the SharePoint Admin Center.
- B. The external collaboration settings in Azure Active Directory.
- C. The **Anonymous users can join a meeting** setting in the Teams Meeting Settings.
- D. The Global Meeting Policy in the Teams Admin Center.

Correct Answer: B

QUESTION 40

You work as a Systems Administrator for your company. The company has recently purchased a subscription to Microsoft 365. All users in your company have a Microsoft 365 E3 license.

You are in the process of configuring Microsoft Teams.

Users in the Marketing department frequently organize events such as trade shows. Organizing an event requires the management of bookings for several resources involved in the event.

You want to add the Microsoft Bookings app to the Microsoft Teams client for the users in the Marketing department.

Which of the following actions should you perform?

- A. Configure a custom **Configuration Profile** that applies to the Marketing users.
- B. Configure a custom **Teams app Permission** policy that applies to the Marketing users.
- C. Configure a custom **Teams upgrade** policy that applies to the Marketing users.
- D. Configure a custom **Teams app Setup** policy that applies to the Marketing users.

Correct Answer: D

QUESTION 42

You work as a Systems Administrator for your company. The company has a subscription to Microsoft 365. All users in your company have a Microsoft 365 E5 license.

All users use Microsoft Teams for collaboration. Several teams and channels have been configured.

A team used by users in the Product Design department contains guest accounts. External Designers work with users in the Product Design department and access the team and channels using the guest accounts.

The external designers report that they are unable to access files used in Microsoft Teams meetings or chats.

You need to enable the external designers to access the files.

Which of the following actions should you perform?

- A. Modify the **Guest access** settings in Microsoft Teams.
- B. Modify the **External access** settings in Microsoft Teams.
- C. Modify the default **Meeting** policy in Microsoft Teams.
- D. Configure the **External Sharing** settings in Microsoft SharePoint Online.

Plan and Configure a Microsoft Teams Environment

Question Set 1

QUESTION 1

HOTSPOT

You have a Microsoft 365 subscription that uses Microsoft Teams and contains the users shown in the following table.

Name	Role	Azure Active Directory (Azure AD) license	Microsoft 365 license
User1	User administrator	Azure Active Directory Premium Plan1	Enterprise E5
User2	None	Azure Active Directory Premium Plan1	Enterprise E5
User3	None	Azure Active Directory Premium Plan2	Enterprise E5
User4	None	Azure Active Directory Premium Plan2	Enterprise E5
Guest1	None	None	None

You have the team shown in the following table.

Name	Owner	Members and guests
Project1	User2	User3 User4 Guest1

A new access review needs to be created for Project1.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Statements	Yes	No
User1 can create and manage the access review.	<input type="radio"/>	<input type="radio"/>
User2 can be assigned as a reviewer of the access review.	<input type="radio"/>	<input type="radio"/>
Guest1 can be assigned as a reviewer of the access review.	<input type="radio"/>	<input type="radio"/>

Correct Answer:

Answer Area

Statements	Yes	No
User1 can create and manage the access review.	<input checked="" type="radio"/>	<input type="radio"/>
User2 can be assigned as a reviewer of the access review.	<input checked="" type="radio"/>	<input type="radio"/>
Guest1 can be assigned as a reviewer of the access review.	<input type="radio"/>	<input checked="" type="radio"/>

QUESTION 5

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company has a Microsoft 365 subscription.

You plan to configure the environment to allow external users to collaborate in Microsoft Teams by using

guest access.

The company implements a new security policy that has the following requirements:

Only guest users from specific domains must be allowed to connect to collaborate by using Microsoft Teams.

Guest users must be prevented from inviting other guests.

You need to recommend a solution to meet the security policy requirements.

Solution: From the Microsoft Teams admin center, you modify the global meeting policy.

Does this meet the goal?

A. Yes

B. No

Correct Answer: B

QUESTION 18

Your company uses Microsoft Teams.

The company has the departments and teams shown in the following table.

Department name	Team name
Sales	Team1
Research and Development	Team2
Finance	Team3

You need to recommend a solution to prevent the users in each department from inviting users from other departments to their team.

What should you include in the recommendation?

- A. app permission policies
- B. Azure Information Protection
- C. communication compliance policies
- D. information barrier policies

Correct Answer: D

Section:

Explanation

Explanation/Reference:

QUESTION 19

Your company has a Microsoft 365 E5 subscription.

The company uses Microsoft Skype for Business Online and plans to upgrade to Microsoft Teams.

The network contains the following devices:

- 100 computers that run Windows 10
- 50 Android devices
- 50 iPhone devices

All the devices have the Skype for Business app installed.

You need to deploy Microsoft Teams to all the devices.

What should you do?

- A. From the Microsoft Teams admin center, set Download the Teams app in the background for Skype for Business users to **On**.
- B. Create a Group Policy Object (GPO) that contains an app package, and then link the GPO.
- C. From the Microsoft Teams admin center, create an app setup policy that includes the Microsoft Teams app, and then assign the policy to all users.
- D. From Microsoft Intune, push Microsoft Teams to all the devices.

Correct Answer: D

Section:

Explanation

Explanation/Reference:

Explanation:

You need to use Microsoft Intune to push Microsoft Teams to all the devices to ensure the iPhone devices and Android devices get the Teams app.

Setting Download the Teams app in the background for Skype for Business users to **On** would only affect the Windows computers.

QUESTION 20

Your company has a Microsoft 365 subscription that contains several teams.

The company's security policy states that an administrator must be notified when a new team is created by using the Build a team from scratch option.

You need to configure the environment to meet the security policy requirement.

What should you do?

- A. From the Microsoft 365 Compliance admin center, enable communication compliance.
- B. From the Microsoft 365 Compliance admin center, create an Office 365 alert policy.
- C. From the Azure Active Directory admin center, create a protection notification.
- D. From the Microsoft Teams admin center, modify the global teams policy.

Correct Answer: B

QUESTION 28

DRAG DROP

You have a Microsoft 365 subscription that has Azure Active Directory Premium Plan 2 licenses.

You need to implement Microsoft Teams lifecycle management to meet the following requirements:

- All unused teams must be deleted after 180 days.
- Inactive guest users must be removed from teams automatically every three months.
- Microsoft Teams admin roles must only be assigned for specific time periods.

Which feature should you use for each requirement? To answer, drag the appropriate features to the correct requirements. Each feature may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Select and Place:

Features	Answer Area
A Microsoft 365 group expiration policy	All unused teams must be deleted after 180 days:
Access reviews in Azure Active Directory (Azure AD)	Inactive guest users must be removed from teams automatically every three months:
Azure Active Directory (Azure AD) Privileged Identity Management (PIM)	Microsoft Teams Admin roles must only be assigned for specific time periods:
Entitlement management in Azure Active Directory (Azure AD)	

Correct Answer:

Features	Answer Area	
	All unused teams must be deleted after 180 days:	A Microsoft 365 group expiration policy
	Inactive guest users must be removed from teams automatically every three months:	Access reviews in Azure Active Directory (Azure AD)
Entitlement management in Azure Active Directory (Azure AD)	Microsoft Teams Admin roles must only be assigned for specific time periods:	Azure Active Directory (Azure AD) Privileged Identity Management (PIM)

QUESTION 29

DRAG DROP

Your company uses Microsoft Teams.

You are planning the compliance strategy for Microsoft Teams. All compliance tasks must be performed by a user in the compliance department who will be assigned the Global admin role and will not be a team owner.

You need to identify which tools to use for the following tasks:

Archive a team.

Restore a deleted team.

Permanently delete a team.

Which tool should you identify for each task? To answer, drag the appropriate tools to the correct tasks. Each tool may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Select and Place:

Tools	Administration tasks
The Microsoft Teams admin center	Restore a deleted team: Tool
The Azure Active Directory admin center	Archive a team: Tool
The Microsoft Teams desktop client	Permanently delete a team: Tool

Correct Answer:

QUESTION 30

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company has a Microsoft 365 subscription and a Virtual Desktop Infrastructure (VDI) solution.

The company's Microsoft Teams upgrade policy is set to Teams only coexistence mode.

You deploy the Microsoft Installer (MSI) package for Microsoft Teams to the VDI solution.

Several months later, users of the VDI solution report that their workstation is missing several new Microsoft Teams features.

You need to ensure that the VDI solution users can use the new Microsoft Teams features.

Solution: You run the `Grant-CsTeamsUpgradePolicy` cmdlet and specify the `-PolicyName` parameter.

Does this meet the goal?

- A. Yes
- B. No

Correct Answer: B

Section:

Explanation/Reference:

QUESTION 39

Your company deploys a Quality of Service (QoS) solution to its network.

You recently deployed Microsoft Teams for all users. Each user uses a domain-joined computer that runs Windows 10.

The users report poor audio quality when they use Microsoft Teams from the network.

You discover that the media traffic from Microsoft Teams is **NOT** processed by the QoS solution.

You need to ensure that all the media traffic is processed by the QoS solution.

Which two actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. From the Microsoft Teams admin center, set Insert Quality of Service (QoS) markers for real-time media traffic to **On**.
- B. From the Microsoft Teams client, select a certified Microsoft Teams audio device.
- C. From PowerShell, run the `Set-CsQoEConfiguration` cmdlet.
- D. From Group Policy Management, create a Group Policy Object (GPO) that contains the Policy-based QoS settings, and then link the GPO to the domain.
- E. From the Microsoft Teams admin center, turn on logging for the device configuration profile.

Correct Answer: AD

QUESTION 40

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company has a Microsoft 365 subscription.

You plan to configure the environment to allow external users to collaborate in Microsoft Teams by using guest access.

The company implements a new security policy that has the following requirements:

- Only guest users from specific domains must be allowed to connect to collaborate by using Microsoft Teams.
- Guest users must be prevented from inviting other guests.

You need to recommend a solution to meet the security policy requirements.

Solution: From PowerShell, you run the `New-CSEExternalAccessPolicy` and `Set-CSEExternalAccessPolicy` cmdlets.

Does this meet the goal?

- A. Yes
- B. No

Correct Answer: A

Section:

Explanation

QUESTION 55

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company has a Microsoft 365 subscription that uses an Azure Active Directory (Azure AD) tenant named contoso.com.

You need to prevent guest users in the tenant from using cameras during Microsoft Teams meetings.

Solution: From Microsoft Teams admin center, you modify the External sharing settings.

Does this meet the goal?

- A. Yes
- B. No

Correct Answer: B

Section:

Explanation

Explanation/Reference:

Explanation:

Guest access in Teams allows people outside your organization to access teams and channels. When you turn on Guest Access, you can turn on or off features guests users can or can't use.

Reference:

<https://docs.microsoft.com/en-us/microsoftteams/set-up-guests>

QUESTION 56

You have a Microsoft 365 subscription and an on-premises Active Directory domain that syncs by using Azure AD Connect.

You need to change the Membership type of a group from Assigned (static) to Dynamic User.

What should you use?

- A. Active Directory Users and Computers
- B. the Microsoft Teams client
- C. the Azure Active Directory admin center
- D. the Microsoft Teams admin center

Correct Answer: C

QUESTION 59

You have a Microsoft Office 365 subscription that contains a user named User1.

You need to ensure that User1 can view Analytics & reports in the Microsoft Teams admin center. The solution must use the principle of least privilege.

Which role should you assign to User1?

- A. Teams Communication support specialist
- B. Skype for Business administrator
- C. Global reader
- D. Global administrator

Correct Answer: B

Section:

QUESTION 60

Your company uses Microsoft Teams.

All the teams used by the company's legal department must meet the following compliance requirements:

- Each team must expire 365 days after it is created.
- All team content must be deleted when the team expires.
- An administrator must be able to restore deleted team content for 30 days.

What should you do?

- A. From the Microsoft 365 compliance center, create a retention policy.
- B. From the Azure Active Directory admin center, configure Microsoft 365 Groups expiration.
- C. From the Microsoft 365 admin center, modify the Office 365 group settings.
- D. From the Microsoft Teams admin center, modify the team's policy.

Correct Answer: B

<https://docs.microsoft.com/en-us/microsoftteams/team-expiration-renewal>

QUESTION 61

You have a Microsoft 365 subscription that uses Microsoft Teams. All users are assigned Microsoft Office 365 Enterprise E3 license.

You need to ensure that the users can join scheduled meetings by dialing a toll-free phone number.

Which two add-on licenses should you assign to the users? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Communication Credits
- B. Microsoft 365 Phone System - Virtual User
- C. Microsoft 365 Domestic Calling Plan
- D. Microsoft 365 Audio Conferencing
- E. Common Area Phone

Correct Answer: AD

<https://docs.microsoft.com/en-us/microsoftteams/set-up-audio-conferencing-in-teams>

QUESTION 62

HOTSPOT

You have a Microsoft 365 subscription that uses Microsoft Teams.

You plan to deploy collaboration bars for Microsoft Teams.

You need to manage built-in software and firmware updates for the collaboration bars. The solution must use the principle of least privilege.

Which updates can be applied automatically, and which role is required to perform manual updates for the collaboration bars? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Updates that can be applied automatically

	▼
Firmware only	
Oem agent app only	
Company portal app only	
Teams app and Teams admin agent	

Role required to perform manual updates

	▼
Teams Administrator	
Teams communication admin	
Teams communication support engineer	
Teams communication support specialist	

Correct Answer:

Answer Area

Updates that can be applied automatically

	▼
Firmware only	
Oem agent app only	
Company portal app only	
Teams app and Teams admin agent	

Role required to perform manual updates

	▼
Teams Administrator	
Teams communication admin	
Teams communication support engineer	
Teams communication support specialist

QUESTION 63

You plan to implement Microsoft Teams for 300 users.

For the first stage of the deployment, you will enable the following features:

- Audio
- Video
- Screen sharing

Users will be prevented from using the following features:

- File sharing
- PSTN calling
- Conference audio
- Conference video
- Conference screen sharing

You need to calculate how much network bandwidth is required for the first-stage deployment.

What should you use?

- A. Network Planner
- B. Network Assessment Tool
- C. Advisor for Teams
- D. Bandwidth Utilization Analyzer

Correct Answer: A

Section:

Explanation

Explanation/Reference:

Reference:

<https://docs.microsoft.com/en-US/microsoftteams/network-planner>

QUESTION 64

You have a Microsoft 365 subscription that uses Microsoft Teams and contains the groups shown in the following table.

Name	Type	Number of members
Group1	Distribution	6,500
Group2	Microsoft 365	4,200
Group3	Microsoft 365	15,200
Group4	Security	13,500

Which groups can be converted into a team?

- A. Group1 only
- B. Group2 only
- C. Group4 only
- D. Group2 and Group3 only
- E. Group1, Group2, Group3, and Group4

Correct Answer: B

Section:

Explanation

Explanation/Reference:

Explanation:

When you create a team from an existing Microsoft 365 group, you'll automatically share the same group privacy (public or private) and members as the original group.

This option is not available for groups that have more than 10,000 members or that were already used to create another team.

Reference: <https://support.microsoft.com/en-us/office/create-a-team-from-an-existing-group-24ec428e-40d7-4a1a-ab87-29be7d145865>

QUESTION 65
HOTSPOT

You are reviewing the planned implementation of information barriers for your company.

You run the following command.

```
Get-InformationBarrierPolicy | Format-Table State.AssignedSegment,Segments*
```

AssignedSegment	State	SegmentsAllowed	SegmentsBlocked
-----	----	-----	-----
HR	Inactive	Sales	
Sales	Inactive		HR, Research
Research	Inactive		Sales

You activate the information barrier policies.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Statements	Yes	No
The users in HR can initiate a Microsoft Teams chat with the users in Sales.	<input type="radio"/>	<input type="radio"/>
The users in Sales can invite the users in HR to a Microsoft Teams meeting.	<input type="radio"/>	<input type="radio"/>
The users in Research and HR can collaborate in a Microsoft Teams channel.	<input type="radio"/>	<input type="radio"/>

Correct Answer:

Answer Area

Statements	Yes	No
The users in HR can initiate a Microsoft Teams chat with the users in Sales.	<input checked="" type="radio"/>	<input type="radio"/>
The users in Sales can invite the users in HR to a Microsoft Teams meeting.	<input type="radio"/>	<input checked="" type="radio"/>
The users in Research and HR can collaborate in a Microsoft Teams channel.	<input checked="" type="radio"/>	<input type="radio"/>

Section:

Explanation

Explanation/Reference:

Explanation:

Box 1: Yes

To allow one segment to communicate with only one other segment, use the New-InformationBarrierPolicy cmdlet with the SegmentsAllowed parameter.

When you want to block segments from communicating with each other, you define two policies: one for each direction. Each policy blocks communication one way only.

Box 2: No

When you want to block segments from communicating with each other, you define two policies: one for each direction. Each policy blocks communication one way only.

Box 3: Yes

No policies between Research and HR so it is allowed.

Block policies prevent one segment from communicating with another segment.

Allow policies allow one segment to communicate with only certain other segments.

Reference: <https://docs.microsoft.com/en-us/microsoft-365/compliance/information-barriers-policies>

QUESTION 66

HOTSPOT

You have a Microsoft 365 subscription that uses Microsoft Teams.

You have the users shown in the following table.

Name	Role	Department
User1	Global Administrator	IT
User2	Teams Administrator	Collaboration
User3	None	Sales

You have the team shown in the following table.

Name	Owner	Type	Channels
Sales_Projects	User3	Private	Planning, Budgets

You create a new group naming policy as shown in the following exhibit.

Group naming policy

The Microsoft 365 groups naming policy allows you to add a specific prefix and/or suffix to the group name and alias of any Microsoft 365 group created by users. For example: <Finance> <group> <Seattle>

Current policy

<Group name>_<Department>

Delete

☐

Add prefix

Select the type of prefix

Delete

☒

Add suffix

☐

String

-

☐

Attribute

Department

Select another suffix

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Statements	Yes	No
User1 must rename the Sales_Projects team as Sales_Projects_Sales the next time a user is added to the team.	<input type="radio"/>	<input type="radio"/>
User2 can create a new team named Engineering_Projects.	<input type="radio"/>	<input type="radio"/>
User3 can create a new channel named Proposals in the Sales_Projects team.	<input type="radio"/>	<input type="radio"/>

Correct Answer:

Answer Area

Statements	Yes	No
User1 must rename the Sales_Projects team as Sales_Projects_Sales the next time a user is added to the team.	<input type="radio"/>	<input checked="" type="radio"/>
User2 can create a new team named Engineering_Projects.	<input type="radio"/>	<input checked="" type="radio"/>
User3 can create a new channel named Proposals in the Sales_Projects team.	<input checked="" type="radio"/>	<input type="radio"/>

Section:
Explanation

Explanation/Reference:
Explanation:

Box 1: No

When group naming policy is configured, the policy will be applied to new Microsoft 365 groups (including teams) created by end users.

For existing Microsoft 365 groups, the policy will not immediately apply at the time of configuration. Once group owner edits the group name for these groups, naming policy will be enforced, even if no changes are made.

Box 2: No

User2 is a member of the Collaboration group, not the Projects group.

You can use attributes that can help you and your users identify which department, office or geographic region for which the group was created. For example, if you define your naming policy as PrefixSuffixNamingRequirement = "GRP [GroupName] [Department]", and User's department = Engineering, then an enforced group name might be "GRP My Group Engineering."

Note: The naming policy is applied to creating or editing groups (including teams) created across workloads (for example, Outlook, Microsoft Teams, SharePoint, Exchange, or Planner), even if no editing changes are made.

Box 3: Yes

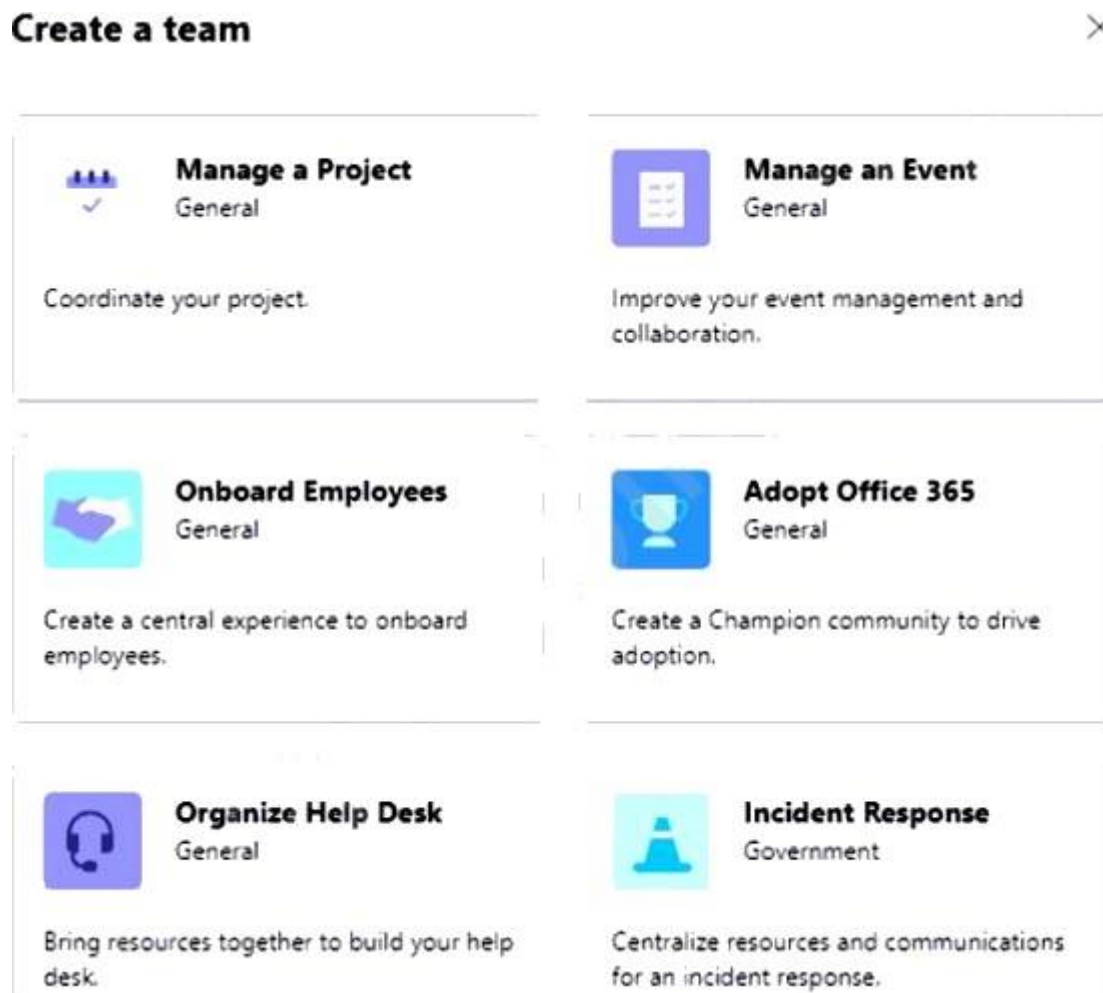

User3's department is Projects.

Reference: <https://docs.microsoft.com/en-us/azure/active-directory/enterprise-users/groups-naming-policy>
<https://activedirectoryfaq.com/2021/02/define-teams-naming-policies/>

QUESTION 67

You have a Microsoft 365 subscription that uses Microsoft Teams.

When a user creates a new team, the user sees the templates shown in the following exhibit.

You need to ensure that the user sees only the Manage a Project template.

What should you do?

A. From the Microsoft Teams admin center, modify the team templates.

- B. From PowerShell, modify the team templates.
- C. From the Microsoft Teams admin center, modify the templates policies.
- D. From PowerShell, modify the Teams policies.

Correct Answer: C

Section:

Explanation

Explanation/Reference:

Explanation:

You can manage team templates in the Microsoft Teams admin center or by using PowerShell. You can use the pre-built templates that we provide and you can also create your own custom templates. You can also apply template policies to control which templates are available to your users in Teams.

Reference: <https://docs.microsoft.com/en-us/microsoftteams/get-started-with-teams-templates-in-the-admin-console>

QUESTION 68

Your company uses Microsoft Teams.

A URL protection report shows many Blocked and clicked through actions.

You need to prevent users from clicking through to blocked URLs.

Which type of policy should you configure?

- A. Anti-spam
- B. Anti-phishing
- C. Safe Attachments
- D. Safe Links

Correct Answer: D

Section:

Explanation

Explanation/Reference:

Explanation:

Safe Links is a feature in Defender for Office 365 that provides URL scanning and rewriting of inbound email messages in mail flow, and time-of-click verification of URLs and links in email messages and other locations. Safe Links scanning occurs in addition to the regular anti-spam and anti-malware protection in inbound email messages in Exchange Online Protection (EOP). Safe Links scanning can help protect your organization from malicious links that are used in phishing and other attacks.

Reference: <https://docs.microsoft.com/en-us/microsoft-365/security/office-365-security/safe-links>

QUESTION 69

HOTSPOT

You have a Microsoft 365 subscription that uses Microsoft Teams.

You have a team named Project1 that contains the users shown in the following table.

Name	Role
User1	Owner
User2	Member

You create a Microsoft 365 groups expiration policy that has the following configurations:

- Group lifetime (in days): 180
- Email contact for groups with no owners: Admin1
- Enable expiration for these Microsoft 365 groups: Project1

The group expiration for Project1 is May 31, 2022.

Which users will be notified to renew Project1, and when the users will receive their first renewal notification? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Notified users:	<div><div></div><div>User1 only</div><div>Admin1 only</div><div>User1 and User2 only</div><div>User1 and Admin1 only</div><div>User1, User2, and Admin1</div></div>
First renewal notification:	<div><div></div><div>May 1, 2022</div><div>May 16, 2022</div><div>March 31, 2022</div></div>

Correct Answer:

Answer Area

Notified users:

User1 only
Admin1 only
User1 and User2 only
User1 and Admin1 only
User1, User2, and Admin1

First renewal notification:

May 1, 2022
May 16, 2022
March 31, 2022

Section:

Explanation

Explanation/Reference:

Explanation:

Box 1: User1
Only the owner.

Group owners will automatically be sent an email before the expiration that allows them to renew the group for another expiration interval. Teams users will see persistent notifications in Teams.

Box 2: May 1, 2022

30 days before the group expires, the group owners (or the email addresses that you specified for groups that don't have an owner) will receive an email allowing them to easily renew the group. If they don't renew it, they'll receive another renewal email 15 days before expiration. If they still haven't renewed it, they will receive one more email notification the day before expiration.

Reference: <https://docs.microsoft.com/en-us/microsoft-365/solutions/microsoft-365-groups-expiration-policy>

Plan and Configure a Microsoft Teams Environment

Testlet 2

Case study

This is a case study. **Case studies are not timed separately. You can use as much exam time as you would like to complete each case.** However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study.

At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section.

To start the case study

To display the first question in this case study, click the **Next** button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. If the case study has an **All Information** tab, note that the information displayed is identical to the information displayed on the subsequent tabs. When you are ready to answer a question, click the **Question** button to return to the question.

Overview

Contoso, Ltd. is a pharmaceutical company that has 3,000 users in offices across North America.

Existing Environment

Active Directory

The network contains an on-premises Active Directory domain. All user accounts are in departmental organizational units (OUs).

Microsoft Office 365

All users are assigned a Microsoft Office 365 E5 license and are enabled for the following services:

- Microsoft Yammer
- Microsoft Exchange Online
- Microsoft SharePoint Online
- Microsoft OneDrive for Business
- Azure Active Directory (Azure AD)
- Azure AD dynamic group membership

Microsoft Skype for Business

Contoso has an on-premises deployment of Microsoft Skype for Business Server 2015. All the latest cumulative updates are installed on all the servers. The following services are used in Skype for Business Server 2015:

- Meetings
- PSTN calling
- Instant messaging (IM)
- Federation to external companies

Departments

Contoso has the following departments:

IT
Sales
Human resources (HR)
Research and development (R&D)

All groups are created by using dynamic group membership that use the department attribute.

Requirements

Business Goals

Contoso identifies the following business goals:

- Migrate the maximum number of users to Microsoft Teams.
- Minimize administrative effort.

Device Requirements

Contoso identifies the following device requirements:

- Replace Skype for Business IP phones with Microsoft Teams phones.
- All Microsoft Teams phones must be set to lock automatically after 60 seconds.

Meeting and Live Event Requirements

Contoso identifies the following meeting and live event requirements:

- Requirement1: Guest users must be able to join live events.
- Requirement2: Guest users must always wait in a meeting lobby.
- Requirement3: Contoso users must always bypass the meeting lobby when they join meetings by using the Microsoft Teams client.
- Requirement4: After the upgrade to Microsoft Teams, all meetings must be scheduled by using Microsoft Teams.

Calling Requirements

Contoso identifies the following calling requirements:

- Migrate all existing auto attendants and response groups to Office 365.
- Minimize the on-premises PSTN infrastructure.

Technical Requirements

Guest users must be prevented from making private calls.

Security Requirements

Contoso has the following security requirements for the Microsoft Teams deployment:

- The number of ports allowed on the company's firewall must be limited.
- Team names must be prevented from containing the name of any products produced by Contoso.
- Users in the R&D group must be prevented from sending chat messages to users in other departments.
- To meet the company's compliance policy, users in the sales department must continue to use on-premises Skype for Business for IM and calling only.

Pilot Project

Contoso begins a pilot project for the upgrade to Microsoft Teams.

You identify the following issues during the pilot project:

- Microsoft Teams users report that they often receive continuous notifications from the Microsoft Teams client for 20 minutes.
- Two pilot users in the HR department report that they are not members of the HR team.

QUESTION 1

You need to configure the environment to meet the security requirements for the R&D group.

What should you do first?

- A. Start the information barrier policy application.
- B. Add an identity provider.
- C. Create two information barrier segments.
- D. Create one information barrier policy.

Correct Answer: C

Section:

Explanation

Explanation/Reference:

Explanation:

Create information barrier segments first, then create information barrier policy based on the segments then start the information barrier application.

Reference:

<https://docs.microsoft.com/en-us/microsoft-365/compliance/information-barriers-policies>

QUESTION 2

HOTSPOT

You need to recommend which inbound ports to the network and outbound ports to Office 365 must be allowed on the company's firewall after the planned upgrade. The solution must meet the security requirements.

Which inbound and outbound ports should you recommend? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Overview

General Overview

Litware, Inc. is an international manufacturing company that has 4,000 users. The company has the following five departments:

- IT
- HR
- R&D
- Sales
- Compliance

Physical Locations

Litware has two main offices. The offices are located in New York and London.

All offices connect to each other by using a WAN link. Each office connects directly to the Internet.

Existing Environment

All user accounts have an Azure Active Directory Premium Plan P1 license.

Litware has a Microsoft 365 subscription that has Office 365 Enterprise E3 licenses for all users. All the E3 products and services are enabled for each user.

Litware uses Microsoft Skype for Business Online.

Requirements

Planned Upgrade

Litware identifies the following requirements for a planned upgrade from Skype for Business Online to Microsoft Teams:

- Provide high quality audio, video, and online meeting experience for Microsoft Teams end users.
- Implement a data retention solution in Microsoft Teams.

- Minimize costs and administrative effort.
- Use the principle of least privilege.

For the sales department, Litware plans to create a team that dynamically updates its membership when users leave and join the department.

Department Upgrade Requirements

Litware plans to implement upgrade requirements for the departments as shown in the following table.

Department name	Requirement
Sales	Must use Microsoft Teams and Skype for Business. Must receive incoming chats and calls by using the same client that initiated the communication.
HR	Must use Microsoft Teams for collaboration and meetings. Must maintain Skype for Business as the preferred client for chat and calling.
IT and R&D	Must use only Microsoft Teams for chat, meetings, calling, and collaboration.

Microsoft Teams Requirements

All teams must meet the following requirements:

- Only users in a partner company that uses a domain named fabrikam.com must be able to collaborate in teams by using guest accounts.
- Only users in the compliance department of Litware must be able to create teams.

Planned Network Tasks

Litware identifies the following network validation tasks:

- An administrator named Admin5 must be able to review the required bandwidth to support audio conferencing, video conferencing, and screen sharing in Microsoft Teams.
- An administrator named Admin6 must be able to review network issues that cause poor call quality reported by users.

Data Retention Requirements

Litware identifies the following data retention requirements:

- Requirement1: All messages in team collaborations must be deleted after seven years.
- Requirement2: all files used in team collaborations must be retained for five years.
- Requirement3: All files used in personal chats must be retained for five years.

Device Requirements

You provide Microsoft Teams-certified IP phones to users in the IT and R&D departments. Each device must meet the following requirements:

- The time zone on the phones used by the R&D department must be set to UTC-8.
- The time zone on the phones used by the IT department must be set to UTC-5.

All phones must lock automatically after 60 seconds of inactivity.

Voice Pilot Requirements

Litware wants to pilot Phone System as a calling solution for 20 IT department users. The pilot project will receive phone numbers from Microsoft.

Collaboration and Meeting Requirements

Litware identifies the following collaboration and meeting requirements:

Cloud recording must be disabled for all Microsoft Teams meetings organized by users in the HR departments only.

Meeting email invitations must be customized to include the Logo URL, Legal URL, and Help URL of Litware.

QUESTION 1

You need to implement a solution to meet the Microsoft Teams requirements for the compliance department.

What should you do first?

- A. Add all the compliance department users as members of an org-wide team.
- B. Add all the compliance department users to a security group.
- C. Add all the compliance department users to an Office 365 group.
- D. Assign the Teams Communications Support Engineer role to all the compliance department users.

Correct Answer: B

Section:

Explanation

Explanation/Reference:

Explanation:

Only users in the compliance department of Litware must be able to create teams.

QUESTION 2

You need to configure the IP phones to meet the device requirements.

What is the minimum number of configuration profiles you should create?

- A. 1
- B. 2
- C. 3
- D. 4

Correct Answer: B

Question Set 1

QUESTION 1

Your company has a Microsoft 365 subscription.

You have a Microsoft Teams team named Sales that is set to Private.

Users report that they can view the Sales team from a list of suggested teams.

You need to hide the team from the list of suggested teams.

What should you do from the Microsoft Teams client?

- A. Modify the Team discovery settings.
- B. Select the **Hide team** option.
- C. Modify the team privacy settings.
- D. Modify the team member permissions.

Correct Answer: A

Section:

Explanation

Explanation/Reference:

<https://docs.microsoft.com/en-us/microsoftteams/manage-discovery-of-private-teams#set-whether-existing-private-teams-are-discoverable>

QUESTION 2

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have a Microsoft 365 subscription that contains several Microsoft SharePoint Online sites.

You need to ensure that the content stored in a SharePoint modern team site named Sales is available from Microsoft Teams. The solution must ensure that when a new channel is added to a team, a folder for the channel is created in the Sales site.

Solution: From a team, you add a tab for the Sales site.

Does this meet the goal?

- A. Yes
- B. No

Correct Answer: B

Section:

Explanation

Explanation/Reference:

Explanation:

This solution will make the Sales site available in Teams. However, the team will already have an associated SharePoint site. Any new channels will create new folders in the existing SharePoint site, not the Sales site.

QUESTION 3

Note: This question is part of a series of questions that present the same scenario. Each question

in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have a Microsoft 365 subscription that contains several Microsoft SharePoint Online sites.

You need to ensure that the content stored in a SharePoint modern team site named Sales is available from Microsoft Teams. The solution must ensure that when a new channel is added to a team, a folder for the channel is created in the Sales site.

Solution: From the Microsoft Teams client, you create a new team and select **Create from an existing Office 365 group or team**.

Does this meet the goal?

- A. Yes
- B. No

Correct Answer: A

Section:

Explanation

Explanation/Reference:

Explanation:

The Sales SharePoint site will have an associated Office 365 group. We need to create a new Team from that group. That will ensure that any new channels created in the new Team will create a new folder in the Sales SharePoint site.

QUESTION 8 HOTSPOT

You have a Microsoft 365 E5 subscription that uses Microsoft Teams and a hybrid deployment of Microsoft Skype for Business Server.

Coexistence mode in Microsoft Teams is set to **Islands**.

Coexistence mode is configured for three users named User1, User2, and User3 as shown in the following table.

User	Coexistence mode
User1	Use Org-wide settings
User2	Skype for Business with Teams collaboration
User3	Teams only

The Skype for Business user accounts are homed as shown in the following table.

User	Homed
User1	On-premises
User2	Online
User3	Online

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Statements	Yes	No
User3 must use the Microsoft Teams client to initiate a new chat with User1.	<input type="radio"/>	<input type="radio"/>
User1 must use the Microsoft Teams client to initiate a new chat with User2.	<input type="radio"/>	<input type="radio"/>
User2 must use the Skype for Business client to initiate a new chat with User1 and User3.	<input type="radio"/>	<input type="radio"/>

Correct Answer:

Answer Area

Statements	Yes	No
User3 must use the Microsoft Teams client to initiate a new chat with User1.	<input checked="" type="radio"/>	<input type="radio"/>
User1 must use the Microsoft Teams client to initiate a new chat with User2.	<input type="radio"/>	<input checked="" type="radio"/>

You apply TeamsUpgradePolicy to the user accounts of the company's R&D and human resources (HR) departments by using the coexistence modes shown in the following table.

Department	Coexistence mode
R&D	TeamsOnly
HR	SfbWithTeamsCollabAndMeetings

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Statements	Yes	No
Users in the R&D department will not be able to join Skype for Business Online meetings.	<input type="radio"/>	<input type="radio"/>
Existing Skype for Business Online meetings scheduled by users in the HR department will migrate automatically to Microsoft Teams.	<input type="radio"/>	<input type="radio"/>
Users in the HR department will be able to make and receive PSTN calls by using Microsoft Teams.	<input type="radio"/>	<input type="radio"/>

Correct Answer:

Answer Area

Statements	Yes	No
Users in the R&D department will not be able to join Skype for Business Online meetings.	<input type="radio"/>	<input checked="" type="radio"/>
Existing Skype for Business Online meetings scheduled by users in the HR department will migrate automatically to Microsoft Teams.	<input checked="" type="radio"/>	<input type="radio"/>
Users in the HR department will be able to make and receive PSTN calls by using Microsoft Teams.	<input type="radio"/>	<input checked="" type="radio"/>

Section:

Explanation

Explanation/Reference:

Explanation:

Box 1: No

TeamsOnly: Can schedule meetings in Teams only, but can join Skype for Business or Teams meetings.

Box 2: Yes

By default, when assigning either TeamsOnly or SfbWithTeamsCollabAndMeetings to an individual user, any existing Skype for Business meetings scheduled by that user for the future are converted to Teams meetings.

Box 3: No

SfbWithTeamsCollabAndMeetings: Has the chat and calling functionality of user in SfBOnly mode.

SfBOnly: Can initiate chats and calls from Skype for Business only.

QUESTION 10

Your company is upgrading from Microsoft Skype for Business Online to Microsoft Teams.

The company's Microsoft Teams upgrade policy is set to Islands coexistence mode. The company plans to maintain the coexistence mode for several months.

Several users report that they receive email messages about missed chat conversations.

You need to recommend a solution to ensure that all the users receive chat messages.

Which two actions should you recommend? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Install the Microsoft Teams clients on all the computers that run the Skype for Business client. Instruct the users to sign in to both client applications.
- B. Instruct the users to modify the permissions in the Microsoft Teams client.
- C. Modify the global app setup policy.
- D. Modify the global app permission policy.
- E. Install the Skype for Business client on all the computers that run the Microsoft Teams client. Instruct the users to sign in to both client applications.

Correct Answer: AE

QUESTION 22

HOTSPOT

You have a Microsoft 365 subscription.

You need to configure the following for all users:

- Prevent the use of third-party apps in Microsoft Teams.
- Configure the Microsoft Teams app navigation bar.

The solution must minimize administrative effort.

What should you do? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Prevent the use of third-party apps in Microsoft Teams:

From the Microsoft 365 admin center, modify the Microsoft Teams Org settings.
From the Microsoft 365 admin center, modify the User owned apps and services Org settings.
From the Microsoft Teams admin center, modify the Org-wide app settings.
From the Microsoft Teams admin center, modify the Org-wide settings.

Configure the Microsoft Teams app navigation bar:

Create a new app permission policy.
Create a new app setup policy.
Modify the global app permission policy.
Modify the global app setup policy.

Correct Answer:

Answer Area

Prevent the use of third-party apps in Microsoft Teams:

From the Microsoft 365 admin center, modify the Microsoft Teams Org settings.
From the Microsoft 365 admin center, modify the User owned apps and services Org settings.
From the Microsoft Teams admin center, modify the Org-wide app settings.
From the Microsoft Teams admin center, modify the Org-wide settings.

Configure the Microsoft Teams app navigation bar:

Create a new app permission policy.
Create a new app setup policy.
Modify the global app permission policy.
Modify the global app setup policy.

QUESTION 24

You have a Microsoft Office 365 subscription.

You need to prevent guest users from deleting channels from a Microsoft Teams team.

What should you use?

- A. the Microsoft Teams admin center
- B. the Azure portal
- C. the Microsoft Teams client
- D. the Microsoft 365 security center

Correct Answer: C

Section:

Explanation

Explanation/Reference:

Explanation:

Disable the Allow guests to delete channels option in the Teams client. Go to the team name and select More options > Manage team. Then select Settings > Guest permissions.

Note:

There are several versions of this question in the exam. The question has two possible correct answers:

1. the Microsoft Teams client
2. the Microsoft Teams PowerShell module

Other incorrect answer options you may see on the exam include the following:

- the Microsoft 365 admin center
- the Azure Active Directory for Windows PowerShell

QUESTION 44

DRAG DROP

Your company has a custom Microsoft Teams app named App1.

You need to deploy App1. The solution must ensure that App1 appears as the first item on the app bar of the Microsoft Teams client.

Which four actions should you perform in sequence? To answer, move the actions from the list of actions to the answer area and arrange them in the correct order.

Select and Place:

Actions	Answer Area
From the Microsoft Teams client,upload App1.	
From the Microsoft Teams admin center,set Allow interaction with custom apps to On .	
From the Microsoft Teams admin center,modify the list of pinned apps.	
From the app setup policy in the Microsoft Teams admin center, add App1 as a pinned app.	
From the app permission policy in the Microsoft Teams admin center set the Microsoft apps setting to Allow all apps .	
From the app permission policy in the Microsoft Teams admin center;set the Third-party apps setting to Allow all apps .	

Correct Answer:

Actions

From the Microsoft Teams client,upload App1.

From the Microsoft Teams admin center,set Allow interaction with custom apps to **On**.

From the Microsoft Teams admin center,modify the list of pinned apps.

From the app setup policy in the Microsoft Teams admin center, add App1 as a pinned app.

From the app permission policy in the Microsoft Teams admin center set the Microsoft apps setting to **Allow all apps**.

From the app permission policy in the Microsoft Teams admin center,set the Third-party apps setting to **Allow all apps**.

Answer Area

From the Microsoft Teams admin center,set Allow interaction with custom apps to **On**.

From the Microsoft Teams client,upload App1.

From the app setup policy in the Microsoft Teams admin center, add App1 as a pinned app.

From the Microsoft Teams admin center,modify the list of pinned apps.

QUESTION 47

Your company has a Microsoft 365 subscription.

The company has a group named Sales.

You need to configure Microsoft Teams for the Sales group. The solution must meet the following requirements:

- Ensure that only the Activity, Shifts, Chat, and Calling apps are always visible in the app bar of the Microsoft Teams client.
- Prevent only the users in the company's sales department from adding other apps to Microsoft Teams.

Which two actions should you perform for the Sales group? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Modify the global app setup policy.
- B. Modify the global app permission policy.
- C. Create an app setup policy.
- D. Modify the org-wide Teams settings.
- E. Create an app permission policy.

Correct Answer: CE

Section:

Explanation

Explanation/Reference:

Explanation:

Creating an app setup policy meets the first requirement.

Create an app setup policy and applying it to the Sales team meets the second requirement.

Reference:

<https://docs.microsoft.com/en-us/microsoftteams/teams-app-setup-policies>

QUESTION 48

Your company has a Microsoft 365 subscription.

The company uses Microsoft Teams.

You need to ensure that only Microsoft apps can be used in Microsoft Teams.

What should you do from the Microsoft Teams admin center?

- A. From the global app setup policy, disable the Upload custom apps setting.
- B. From the Org-wide app settings, disable the Allow interaction with custom apps setting.
- C. From the Org-wide app settings, disable the Allow third party or custom apps setting.
- D. From the global app permission policy, disable the Allow All Apps setting for Microsoft apps.

Correct Answer: C

QUESTION 49

You have a Microsoft Office 365 subscription.

You discover that apps from a third-party publisher have security issues.

You need to block all apps from the publisher.

What should you use in the Microsoft Teams admin center?

- A. Org-wide app settings
- B. Policy packages
- C. Permission policies
- D. Manage apps

Correct Answer: D

QUESTION 50

HOTSPOT

You have a Microsoft Office 365 subscription.

You need to meet the following requirements:

- Pin specific apps to the Microsoft Teams app bar.
- Prevent users from installing third-party apps published in the Teams app store.
- Prevent users from pinning apps to the Microsoft Teams app bar.

What should you use to meet each requirement? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Pin specific apps to the app bar:

	▼
App permission policies	
App setup policies	
Microsoft Teams policies	
Microsoft Teams settings	

Prevent users from pinning apps to the app bar:

	▼
App permission policies	
App setup policies	
Microsoft Teams policies	
Microsoft Teams settings	

Prevent users from installing third-party apps
published to the Teams app store:

	▼
App permission policies	
App setup policies	
Microsoft Teams policies	
Microsoft Teams settings	

Correct Answer:

Answer Area

Pin specific apps to the app bar:

	▼
App permission policies	
App setup policies	
Microsoft Teams policies	
Microsoft Teams settings	

Prevent users from pinning apps to the app bar:

	▼
App permission policies	
App setup policies	
Microsoft Teams policies	
Microsoft Teams settings	

Prevent users from installing third-party apps
published to the Teams app store:

	▼
App permission policies	
App setup policies	
Microsoft Teams policies	
Microsoft Teams settings

QUESTION 51

HOTSPOT

You are a Microsoft Teams administrator for your company.

You have the Org-wide app settings shown in the App Settings exhibit. (Click the **App Settings** tab.)

Org-wide app settings

Third party apps

You can control which third party apps can be installed for your organization. [Learn more](#)

Allow third party or custom apps 

☒ On

Allow any new third party apps published to the store by default 

☒ On

Custom apps

If your organization requires apps other than those available in the Teams Apps store, custom apps can be developed as app packages and uploaded. [Learn more](#)

Allow interaction with custom apps 

☒ On

Blocked apps (1)

Search for apps you want to block across your organization or to see a list of apps go to [Teams app store](#).

Search by name

Planner
Microsoft Corp.

Save

Cancel

The company's global app permission policy is configured as shown in the Permission Policy exhibit. (Click the **Permission Policy** tab.)

Global

Description

Microsoft apps

Choose which Teams apps published by Microsoft or its partners can be installed by your users.

 Allow specific apps and block all others 

+ Add apps  Remove 2 Items

✓ Allowed apps	App ID	Distributor
 Flow	c3a1996d-db0f-4857-a6ea-7aabf0266b00	Microsoft Corp.
 Planner	com.microsoft.teamspace.tab.planner	Microsoft Corp.

Third-party apps

Choose which Teams apps published by a third-party that can be installed by your users.

 Block all apps 

Tenant apps

Choose which Tenant apps can be installed by your users.

 Block all apps 

The company's global app setup policy is configured as shown in the Setup Policy exhibit. (Click the **Setup Policy** tab.)

Global

Description

Upload custom apps ⓘ

☒ On

Pinned apps

Choose the order that apps are pinned in the Teams app navigation bar.

+ Add apps ↑ Move up ↓ Move down ✕ Remove | 7 Items

✓	Name	App ID	Distributor
	Activity	14d6962d-6eeb-4f48-8890-de55454bb136	Microsoft
	Planner	com.microsoft.teamspace.tab.planner	Microsoft Corp.
	Chat	86fcd49b-61a2-4701-b771-54728cd291fb	Microsoft
	Teams	2a84919f-59d8-4441-a975-2a8c2643b741	Microsoft

	Files	5af6a76b-40fc-4ba1-af29-8f49b08e44fd	Microsoft

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Statements	Yes	No
Team members can upload apps from the Microsoft Teams client.	<input type="radio"/>	<input type="radio"/>
All team members can add the Microsoft Flow app to a team.	<input type="radio"/>	<input type="radio"/>
All team members can add the Microsoft Planner app to a team.	<input type="radio"/>	<input type="radio"/>

Correct Answer:

Answer Area

Statements	Yes	No
Team members can upload apps from the Microsoft Teams client.	<input checked="" type="radio"/>	<input type="radio"/>
All team members can add the Microsoft Flow app to a team.	<input checked="" type="radio"/>	<input type="radio"/>
All team members can add the Microsoft Planner app to a team.	<input type="radio"/>	<input checked="" type="radio"/>

Section:

Explanation

Explanation/Reference:

Explanation:

Box 1: Yes

“Allow interaction with custom apps” in the org-wide policy and “upload custom apps” in the global policy are set to on. This means that users can upload custom apps to teams that allow it and to teams for which they are owners.

Box 2: Yes

The global policy allows Microsoft Flow.

Box 3: No

The global policy allows Microsoft Planner. However, the org-wide settings blocks Microsoft Planner. In this case, the org-wide policy blocking the app will override the global policy meaning the app will be blocked. When an app is blocked, users will not be able to add the app to a team.

QUESTION 52

Your company has a Microsoft 365 subscription that contains three groups named HR, Marketing, and Sales.

You need to configure the Microsoft Teams desktop client. The solution must meet the following requirements:

Members of the HR group must be prevented from pinning apps to their app bar.

Members of the Marketing group must have the Microsoft Planner app pinned to their app bar.

Members of the Sales group must not be affected by policies applied to the Marketing and HR groups.

Which two actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Modify the global app setup policy.
- B. Modify the global app permission policy.
- C. Create an app setup policy for HR.
- D. Create an app setup policy for Marketing.
- E. Create an app permission policy for Marketing.
- F. Create an app permission policy for HR.

Correct Answer: CD

QUESTION 54 HOTSPOT

You have a Microsoft 365 subscription that uses Microsoft Teams and contains the users shown in the following table.

Name	Role
Admin1	Teams Administrator
User1	User
User2	User
User3	User
User4	User
User5	User

You have a team named Sales that is configured as shown in the following table.

Name	Privacy	Role	Members
Sales	Private	Owner	User1
		Member	User2
		Member	User3
		Member	User4

The Sales team contains the channels shown in the following table.

Name	Type	Owner	Members
Planning	Standard	User1	User2 User3 User4
Budget	Private	User2	User3 User4

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Statements	Yes	No
User1 can see the membership list of the Budgets channel.	<input type="radio"/>	<input type="radio"/>
User2 can add User5 as a member of the Budgets channel.	<input type="radio"/>	<input type="radio"/>
Admin1 can convert Planning into a private channel.	<input type="radio"/>	<input type="radio"/>

Correct Answer:

Answer Area

Statements	Yes	No
User1 can see the membership list of the Budgets channel.	<input type="radio"/>	<input checked="" type="radio"/>
User2 can add User5 as a member of the Budgets channel.	<input checked="" type="radio"/>	<input type="radio"/>
Admin1 can convert Planning into a private channel.	<input type="radio"/>	<input checked="" type="radio"/>

QUESTION 55

You have a Microsoft 365 subscription that uses Microsoft Teams.

You need to ensure that only the following apps are available in the Microsoft Teams app store:

- Lists
- Project
- Bulletins
- OneNote
- PowerApps

The solution must minimize administrative effort.

What should you do?

- A. Configure the Org-wide app settings
- B. From the Manage apps page, block unapproved apps
- C. Configure the global (Org-wide default) app permission policy
- D. Configure the global (Org-wide default) app setup policy

Correct Answer: C

QUESTION 57

You have a Microsoft Office 365 subscription.

You need to prevent guest users from deleting channels from a Microsoft Teams team.

What should you use?

- A. the Microsoft Teams admin center
- B. the Microsoft 365 admin center
- C. the Microsoft Teams PowerShell module
- D. the Microsoft 365 security center

Correct Answer: C

Section:

Explanation

Explanation/Reference:

Explanation:

The Set-Team with the -AllowGuestDeleteChannels parameter determines whether or not members (and not only owners) can delete channels in the team.

Note:

There are several versions of this question in the exam. The question has two possible correct answers:

1. the Microsoft Teams client
2. the Microsoft Teams PowerShell module

Other incorrect answer options you may see on the exam include the following:

- the Azure portal
- the Azure Active Directory for Windows PowerShell

Reference:

<https://docs.microsoft.com/en-us/powershell/module/teams/set-team?view=teams-ps>

QUESTION 58

You have a Microsoft 365 subscription that uses Microsoft Teams and contains the groups shown in the following table.

Name	Type	Number of members
Group1	Distribution	11,500
Group2	Security	4,500
Group3	Distribution	2,500

You create a new team named Project1.

Which groups can be added to Project1?

- A. Group1 only
- B. Group2 only
- C. Group3 only
- D. Group1 and Group3 only
- E. Group1, Group2, and Group3

Correct Answer: C

Section:

Explanation

Explanation/Reference:

Explanation:

Maximum size of distribution list, security group or Office 365 group that can be imported in to a team: 3,500.

Reference:

<https://docs.microsoft.com/en-us/microsoftteams/limits-specifications-teams>

QUESTION 59

DRAG DROP

You have a Microsoft 365 subscription that uses Microsoft Teams and contains three users named User1, User2, and User3.

You need to configure Microsoft Teams to meet the following requirements:

- Prevent User1 and User2 from creating private channels.
- Ensure that User3 can control who can create private channels.
- Minimize administrative effort.

Which three actions should you perform in sequence? To answer, move all actions from the list of actions to the answer area and arrange them in the correct order.

NOTE: More than one order of answer choices is correct. You will receive credit for any of the correct orders you select.

Select and Place:

Actions

Create a distribution list named dist1. To dist1, add User1 and User2 as members and add User3 as the owner

Create an update policy named Policy1 and set Show preview features to On

Add a teams policy named Policy1 and set Create private channels to Off

Edit the properties of User1 and User2 and set Teams policy to Policy1

Create a Microsoft Teams group policy assignment and assign Policy1 to dist1

Answer Area

>

<

Correct Answer:

Actions

Create an update policy named Policy1 and set Show preview features to On

Edit the properties of User1 and User2 and set Teams policy to Policy1

Answer Area

Create a distribution list named dist1. To dist1, add User1 and User2 as members and add User3 as the owner

QUESTION 60

You have a Microsoft 365 subscription that uses Microsoft Teams.

You have a team named R&D_Projects.

You need to prevent guest users from being invited to R&D_Projects. The guest users must be able to be invited to other teams.

What are two ways to block guest access to the R&D_Projects team? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Apply a sensitivity label to the R&D_Projects team.
- B. From Azure PowerShell, run the `New-AzureADObjectSetting` cmdlet.
- C. Configure a Microsoft 365 group expiration policy.
- D. From the Microsoft Teams admin center, disable guest access.
- E. From the Microsoft 365 admin center, disable guest access.

Correct Answer: AB

Section:

Explanation

Explanation/Reference:

<https://docs.microsoft.com/en-us/microsoft-365/solutions/per-group-guest-access?view=o365-worldwide>

QUESTION 61

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have a Microsoft 365 subscription that contains several Microsoft SharePoint Online sites.

You need to ensure that the content stored in a SharePoint modern team site named Sales is available from Microsoft Teams. The solution must ensure that when a new channel is added to a team, a folder for the channel is created in the Sales site.

Solution: From the Sales site, you use the **Add Microsoft Teams** link.

Does this meet the goal?

- A. Yes
- B. No

Correct Answer: B

Section:

Explanation

Explanation/Reference:

QUESTION 62

You have a Microsoft 365 subscription that uses Microsoft Teams and contains a Microsoft 365 group named Group1.

The subscription has the Teams policy shown in the following exhibit.

+ Add

Edit

Delete

Reset Global policy

Manage users

1 item

✓

Name ↑

Global (Org-wide default)

Description

Custom policy

No

Create private channels

Off

You need to ensure that the members of Group1 can create private channels. The solution must use the principle of least privilege.

What should you do first?

- A. Modify the Teams settings for the subscription.
- B. Create a team template.
- C. Modify the Global (Org-wide default) policy and set Create private channels to **On**.
- D. Create a Teams policy that has Create private channels set to **On**.

Correct Answer: D

Section:

Explanation

Explanation/Reference:

Explanation:

As an admin, you can use policies in Microsoft Teams to control what users in your organization can do in teams and channels. For example, you can set whether users are allowed to create private or shared channels.

You manage teams policies by going to Teams > Teams policies in the Microsoft Teams admin center. You can use the global (Org-wide default) policy or create and assign custom policies. Users in your organization will automatically get the global policy unless you create and assign a custom policy.

Note, step 2: You can assign a policy directly to users, either individually or at scale through a batch assignment (if supported for the policy type), or to a group that the users are members of (if supported for the policy type).

Reference: <https://docs.microsoft.com/en-us/microsoftteams/teams-policies>

QUESTION 63

You have a Microsoft 365 E5 subscription that uses Microsoft Teams.

You create a team named SalesProject.

You need users to be added automatically to the team based on their department attribute.

What should you do?

- A. From the Azure Active Directory admin center, change the Membership type setting of SalesProject.
- B. From the Azure Active Directory admin center, change the Group type setting of SalesProject.
- C. From the Microsoft 365 admin center, modify the settings of SalesProject.
- D. From the Microsoft Teams admin center, modify the settings of SalesProject.

Correct Answer: B

Section:

Explanation

Explanation/Reference:

Explanation:

You can change a group's membership from static to dynamic (or vice-versa) In Azure Active Directory (Azure AD). Azure AD keeps the same group name and ID in the system, so all existing references to the group are still valid. If you create a new group instead, you would need to update those references. Dynamic group membership eliminates management overhead adding and removing users.

Note: In Azure Active Directory (Azure AD), you can use rules to determine group membership based on user or device properties. Dynamic membership is supported for security groups or Microsoft 365 Groups. When a group membership rule is applied, user and device attributes are evaluated for matches with the membership rule. When an attribute changes for a user or device, all dynamic group rules in the organization are processed for membership changes. Users and devices are added or removed if they meet the conditions for a group.

Reference: <https://docs.microsoft.com/en-us/azure/active-directory/enterprise-users/groups-change-type>

QUESTION 64

HOTSPOT

You have a Microsoft 365 E5 subscription that uses Microsoft Teams and contains three users named User1, User2, and User3.

The Teams upgrade settings for the organization are configured as shown in the following exhibit.

Teams upgrade

Teams upgrade lets you set up your upgrade experience from Skype for Business to Teams for your users. You can use the default settings or make changes to the coexistence mode and app preferences to fit your organizational needs. [Learn more](#)

Coexistence mode

Coexistence mode ⓘ

Islands

Notify Skype for Business users that an upgrade to Teams is available. ⓘ

☐ Off

App preferences

Preferred app for users to join Skype for Business meetings ⓘ

Skype for Business

Download the Teams app in the background for Skype for Business users ⓘ

☒ On

Save

Discard

The Coexistence mode settings for the users are configured as shown in the following table.

Name	Coexistence mode
User1	Use Org-wide settings
User2	Skype for Business with Teams collaboration
User3	Teams only

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Statements	Yes	No
User1 will receive a notification when an upgrade to Microsoft Teams is available.	<input type="radio"/>	<input type="radio"/>
The Microsoft Teams client will download silently for User2.	<input type="radio"/>	<input type="radio"/>
User3 must use the Skype for Business client to chat with User1.	<input type="radio"/>	<input type="radio"/>

Correct Answer:

Answer Area

Statements	Yes	No
User1 will receive a notification when an upgrade to Microsoft Teams is available.	<input type="radio"/>	<input checked="" type="radio"/>
The Microsoft Teams client will download silently for User2.	<input checked="" type="radio"/>	<input type="radio"/>
User3 must use the Skype for Business client to chat with User1.	<input type="radio"/>	<input checked="" type="radio"/>

Section:

Explanation

Explanation/Reference:

Explanation:

Box 1: No

User1 coexistence mode is set to Org-wide settings, which is set to Skype for Business.

In this coexistence mode, users remain in Skype for Business—not Teams—for chat, meeting, and calling capabilities, and they don't use Teams for teams and channels.

Box 2: Yes

User2 coexistence mode is set to Skype for Business with Teams collaboration.

Use this mode to introduce Teams in your environment while you continue to use your existing investment in Skype for Business.

The "Download the Teams app in the background.." is on.

You can select the "Download the Teams app in the background for Skype for Business users" option. By default, this setting is set to On. With this setting enabled it will download the Teams app in the background for users running the Skype for Business app on Windows PCs. This happens if the Coexistence mode for the user is Teams Only, or if a pending upgrade notification is enabled in the Skype for Business app.

Box 3: No

User3 coexistence mode is set to Teams only.

A Teams Only user (also called an upgraded user) has access to all the capabilities in Teams. They may retain the Skype for Business client to join meetings on Skype for Business that have been organized by non-upgraded users or external parties. An upgraded user can continue to communicate with other users in the organization who are still using Skype for Business by using the interoperability capabilities between Teams and Skype for Business (provided the Skype for Business users are not in Islands mode).

Reference: <https://docs.microsoft.com/en-us/microsoftteams/teams-and-skypeforbusiness-coexistence-and-interoperability>

QUESTION 65

You have a Microsoft 365 subscription that uses Microsoft Teams and contains a distribution group named Group1 and a team named Project1.

You add Group1 to Project1.

100 new members are added to Group1.

When will the membership of Project1 will be updated to reflect the changes to the group membership?

- A. Automatically and immediately
- B. Automatically after 24 hours
- C. Only when the group is re-added manually to Project1

Correct Answer: B

Section:

Explanation

Explanation/Reference:

Explanation:

If you add or remove team members outside of the Teams client (by using the Microsoft 365 admin center, Azure AD, or Exchange Online PowerShell), it can take up to 24 hours for changes to be reflected in Teams.

Note: Dynamic distribution groups (DDGs) are mail-enabled Active Directory group objects that are created to expedite the mass sending of email messages and other information within a Microsoft Exchange organization.

The membership list is now stored for each DDG and is updated once every 24 hours.

Reference: <https://docs.microsoft.com/en-us/microsoftteams/office-365-groups>

QUESTION 66

HOTSPOT

You need to install the Microsoft Viva Connections application in Microsoft Teams for a specific group.

How should you complete the PowerShell cmdlets? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Manage Chat, Teams, Channels, and Apps

Testlet 2

Case study

This is a case study. **Case studies are not timed separately. You can use as much exam time as you would like to complete each case.** However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study.

At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section.

To start the case study

To display the first question in this case study, click the **Next** button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. If the case study has an **All Information** tab, note that the information displayed is identical to the information displayed on the subsequent tabs. When you are ready to answer a question, click the **Question** button to return to the question.

Overview

Contoso, Ltd. is a pharmaceutical company that has 3,000 users in offices across North America.

Existing Environment

Active Directory

The network contains an on-premises Active Directory domain. All user accounts are in departmental organizational units (OUs).

Microsoft Office 365

All users are assigned a Microsoft Office 365 E5 license and are enabled for the following services:

- Microsoft Yammer
- Microsoft Exchange Online
- Microsoft SharePoint Online
- Microsoft OneDrive for Business
- Azure Active Directory (Azure AD)
- Azure AD dynamic group membership

Microsoft Skype for Business

Contoso has an on-premises deployment of Microsoft Skype for Business Server 2015. All the latest cumulative updates are installed on all the servers. The following services are used in Skype for Business Server 2015:

- Meetings
- PSTN calling
- Instant messaging (IM)
- Federation to external companies

Departments

Contoso has the following departments:

IT
Sales
Human resources (HR)
Research and development (R&D)

All groups are created by using dynamic group membership that use the department attribute.

Requirements

Business Goals

Contoso identifies the following business goals:

- Migrate the maximum number of users to Microsoft Teams.
- Minimize administrative effort.

Device Requirements

Contoso identifies the following device requirements:

- Replace Skype for Business IP phones with Microsoft Teams phones.
- All Microsoft Teams phones must be set to lock automatically after 60 seconds.

Meeting and Live Event Requirements

Contoso identifies the following meeting and live event requirements:

- Requirement1: Guest users must be able to join live events.
- Requirement2: Guest users must always wait in a meeting lobby.
- Requirement3: Contoso users must always bypass the meeting lobby when they join meetings by using the Microsoft Teams client.
- Requirement4: After the upgrade to Microsoft Teams, all meetings must be scheduled by using Microsoft Teams.

Calling Requirements

Contoso identifies the following calling requirements:

- Migrate all existing auto attendants and response groups to Office 365.
- Minimize the on-premises PSTN infrastructure.

Technical Requirements

Guest users must be prevented from making private calls.

Security Requirements

Contoso has the following security requirements for the Microsoft Teams deployment:

- The number of ports allowed on the company's firewall must be limited.
- Team names must be prevented from containing the name of any products produced by Contoso.
- Users in the R&D group must be prevented from sending chat messages to users in other departments.
- To meet the company's compliance policy, users in the sales department must continue to use on-premises Skype for Business for IM and calling only.

Pilot Project

Contoso begins a pilot project for the upgrade to Microsoft Teams.

You identify the following issues during the pilot project:

- Microsoft Teams users report that they often receive continuous notifications from the Microsoft Teams client for 20 minutes.
- Two pilot users in the HR department report that they are not members of the HR team.

QUESTION 1

You need to configure the user accounts of the sales department users to meet the security requirements.

What should you do for each user?

- A. From PowerShell, run the `Grant-CsTeamsUpgradePolicy -PolicyName SfBOnly` cmdlet.
- B. From PowerShell, run the `Grant-CsTeamsUpgradePolicy -PolicyName SfBWithTeamsCollabandMeetings` cmdlet.
- C. From the Microsoft Teams admin center, set the Microsoft Teams upgrade policy to **Skype for Business only** coexistence mode.
- D. From PowerShell, run the `Grant-CsTeamsUpgradePolicy -PolicyName Islands` cmdlet.

Correct Answer: B

Section:

Explanation

Explanation/Reference:

Reference:

<https://docs.microsoft.com/en-us/microsoftteams/teams-and-skypeforbusiness-coexistence-and-interoperability>

QUESTION 2

You need to resolve the membership issues for the two pilot users.

What should you do?

- A. Modify the department attribute of both users.
- B. Invite both users to the HR team.
- C. Add both users to the HR group.
- D. Modify the privacy level of the HR team.

Correct Answer: A

Section:

Explanation

Explanation/Reference:

QUESTION 3

You need to resolve the notification issues identified during the pilot project.

What should you modify?

- A. the global meeting policy
- B. the global messaging policy
- C. the org-wide Teams settings
- D. the app permission policy

Correct Answer: B

Section:

Explanation

Explanation/Reference:

Explanation:

You need to disable priority notifications in the global messaging policy.

Send urgent messages using priority notifications If you turn this on, users can send messages

using priority notifications. Priority notifications notify users every 2 minutes for a period of 20 minutes or until messages that are marked as *urgent* are picked up and read by the recipient, maximizing the likelihood that the message is acted upon in a timely manner.

Reference:

<https://docs.microsoft.com/en-us/microsoftteams/messaging-policies-in-teams>

QUESTION 4

You need to configure the user accounts of the sales department users to meet the security requirements.

What should you do for each user?

- A. From the Microsoft Teams admin center, set the Microsoft Teams upgrade policy to **Skype for Business with Teams collaboration and meetings** coexistence mode.
- B. From PowerShell, run the `Grant-CsTeamsUpgradePolicy -PolicyName SfBWithTeamsCollab` cmdlet.
- C. From the Microsoft Teams admin center, set the Microsoft Teams upgrade policy to **Skype for Business only** coexistence mode.
- D. From the Microsoft Teams admin center, set the Microsoft Teams upgrade policy to **Skype for Business with Teams collaboration** coexistence mode.

Correct Answer: A

Section:

Explanation

Explanation/Reference:

Reference:

<https://docs.microsoft.com/en-us/microsoftteams/teams-and-skypeforbusiness-coexistence-and-interoperability>

Manage Chat, Teams, Channels, and Apps

Testlet 3

Case study

This is a case study. **Case studies are not timed separately. You can use as much exam time as you would like to complete each case.** However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study.

At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section.

To start the case study

To display the first question in this case study, click the **Next** button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. If the case study has an **All Information** tab, note that the information displayed is identical to the information displayed on the subsequent tabs. When you are ready to answer a question, click the **Question** button to return to the question.

Overview

General Overview

Litware, Inc. is an international manufacturing company that has 4,000 users. The company has the following five departments:

- IT
- HR
- R&D
- Sales
- Compliance

Physical Locations

Litware has two main offices. The offices are located in New York and London.

All offices connect to each other by using a WAN link. Each office connects directly to the Internet.

Existing Environment

All user accounts have an Azure Active Directory Premium Plan P1 license.

Litware has a Microsoft 365 subscription that has Office 365 Enterprise E3 licenses for all users. All the E3 products and services are enabled for each user.

Litware uses Microsoft Skype for Business Online.

Requirements

Planned Upgrade

Litware identifies the following requirements for a planned upgrade from Skype for Business Online to Microsoft Teams:

- Provide high quality audio, video, and online meeting experience for Microsoft Teams end users.
- Implement a data retention solution in Microsoft Teams.

Minimize costs and administrative effort.
Use the principle of least privilege.

For the sales department, Litware plans to create a team that dynamically updates its membership when users leave and join the department.

Department Upgrade Requirements

Litware plans to implement upgrade requirements for the departments as shown in the following table.

Department name	Requirement
Sales	Must use Microsoft Teams and Skype for Business. Must receive incoming chats and calls by using the same client that initiated the communication.
HR	Must use Microsoft Teams for collaboration and meetings. Must maintain Skype for Business as the preferred client for chat and calling.
IT and R&D	Must use only Microsoft Teams for chat, meetings, calling, and collaboration.

Microsoft Teams Requirements

All teams must meet the following requirements:

Only users in a partner company that uses a domain named fabrikam.com must be able to collaborate in teams by using guest accounts.
Only users in the compliance department of Litware must be able to create teams.

Planned Network Tasks

Litware identifies the following network validation tasks:

An administrator named Admin5 must be able to review the required bandwidth to support audio conferencing, video conferencing, and screen sharing in Microsoft Teams.
An administrator named Admin6 must be able to review network issues that cause poor call quality reported by users.

Data Retention Requirements

Litware identifies the following data retention requirements:

Requirement1: All messages in team collaborations must be deleted after seven years.
Requirement2: all files used in team collaborations must be retained for five years.
Requirement3: All files used in personal chats must be retained for five years.

Device Requirements

You provide Microsoft Teams-certified IP phones to users in the IT and R&D departments. Each device must meet the following requirements:

The time zone on the phones used by the R&D department must be set to UTC-8.
The time zone on the phones used by the IT department must be set to UTC-5.

All phones must lock automatically after 60 seconds of inactivity.

Voice Pilot Requirements

Litware wants to pilot Phone System as a calling solution for 20 IT department users. The pilot project will receive phone numbers from Microsoft.

Collaboration and Meeting Requirements

Litware identifies the following collaboration and meeting requirements:

Cloud recording must be disabled for all Microsoft Teams meetings organized by users in the HR departments only.

Meeting email invitations must be customized to include the Logo URL, Legal URL, and Help URL of Litware.

QUESTION 1

HOTSPOT

You need to configure Microsoft Teams to meet the department upgrade requirements.

For each of the following statements, select Yes if that statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer area

Statements	Yes	No
The Microsoft Teams upgrade policy must be set to Skype for Business with Teams collaboration and meetings coexistence mode for the sales department users.	<input type="radio"/>	<input type="radio"/>
The Microsoft Teams upgrade policy must be set to Skype for Business only coexistence mode for the HR department users.	<input type="radio"/>	<input type="radio"/>
The Microsoft Teams upgrade policy must be set to Teams only coexistence mode for the IT department users.	<input type="radio"/>	<input type="radio"/>

Correct Answer:

Answer area

Statements	Yes	No
The Microsoft Teams upgrade policy must be set to Skype for Business with Teams collaboration and meetings coexistence mode for the sales department users.	<input type="radio"/>	<input checked="" type="radio"/>
The Microsoft Teams upgrade policy must be set to Skype for Business only coexistence mode for the HR department users.	<input type="radio"/>	<input checked="" type="radio"/>
The Microsoft Teams upgrade policy must be set to Teams only coexistence mode for the IT department users.	<input checked="" type="radio"/>	<input type="radio"/>

Manage Calling and Meetings

Question Set 1

QUESTION 1

HOTSPOT

You have a Microsoft 365 subscription that has the licenses shown in the following table.

Type	Amount
Domestic Calling Plan	100
Phone System	100
Audio Conferencing	35

What is the maximum number of user phone numbers and toll-free service numbers you can acquire? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

User phone numbers:

	▼
100	
120	
235	

Toll-free service numbers:

	▼
30	
100	
135	

Correct Answer:

Answer Area

User phone numbers:

	▼
100	
120	
235	

Toll-free service numbers:

	▼
30	
100	
135

QUESTION 2

Your company uses Phone System.

A group of users make outbound calls on behalf of the company's billing department.

You need to ensure that when the users make the outbound calls, their numbers are replaced by a phone number that is associated to an existing call queue.

What should you do first?

- A. Create a new calling policy and set Make private calls to **On**.
- B. Create a new calling policy and set Inbound calls can be routed to call groups to **On**.
- C. Create a new caller ID policy and set Replace caller ID to **Anonymous**.
- D. Create a new caller ID policy and set Replace caller ID to **Service number**.

Correct Answer: D

<https://docs.microsoft.com/en-us/microsoftteams/what-are-emergency-locations-addresses-and-call-routing>

QUESTION 4

You have a Microsoft 365 subscription that uses Microsoft Teams.

You plan to deploy Microsoft Teams voice.

Which two settings require a resource account? Each correct answer presents part of the solution.

NOTE: Each correct selection worth one point.

- A. Call park policies
- B. Auto attendant
- C. Call queues
- D. Emergency policies
- E. Guest access

Correct Answer: BC

Section:

Explanation

Explanation/Reference:

Reference:

<https://docs.microsoft.com/en-us/microsoftteams/manage-resource-accounts>

QUESTION 5

Your company has five offices. Each office has a unique phone number.

You plan to deploy Phone System to all the offices.

You need to ensure that each office has a unique greeting message for the weekdays and a unique greeting message for the weekends. The solution must minimize administrative effort.

What should you create?

- A. one auto attendant that contains all five phone numbers
- B. one call queue that contains all five phone numbers
- C. five auto attendants that each contains one phone number
- D. five call queues that each contains one phone number

Correct Answer: C

Section:

Explanation

Explanation/Reference:

Explanation:

Each office needs a unique greeting message. A single auto attendant can have separate greeting messages for weekday and weekends. However, to have five different greeting messages, you need five auto attendants.

Reference:

<https://docs.microsoft.com/en-us/microsoftteams/create-a-phone-system-auto-attendant>

QUESTION 6

HOTSPOT

Your company has a Microsoft 365 subscription. You add guest users to the organization.

The company's global live event policy is configured as shown in the following exhibit.

Global	
Description	
Allow scheduling	<input checked="" type="checkbox"/> On
Allow transcription for attendees	<input checked="" type="checkbox"/> On
Who can join scheduled live events	Everyone in the organization
Who can record an event	Always record

Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

[Answer choice] can access live events.

	▼
Users who have an Azure AD account, external access users, and guest users	
Only users who have an Azure AD account and external access users	
Only users who have an Azure AD account and guest users	
Only users who have an Azure AD account only	

[Answer choice] can schedule live events.

	▼
All users who have an Azure AD account	
All users who have an Azure AD account and guest users	
Only global administrators	
Only team owners	

Correct Answer:

Answer Area

[Answer choice] can access live events.

	▼
Users who have an Azure AD account, external access users, and guest users	
Only users who have an Azure AD account and external access users	
Only users who have an Azure AD account and guest users	
Only users who have an Azure AD account only	

[Answer choice] can schedule live events.

	▼
All users who have an Azure AD account	
All users who have an Azure AD account and guest users	
Only global administrators	
Only team owners

QUESTION 7

Your company has a Microsoft 365 subscription.

The company has a main office in Chicago.

The company opens a new office in Toronto that has 500 users.

You need to ensure that the correct address is available to emergency responders.

What should you do?

- A. Create a configuration profile and assign the profile to the device of each user.
- B. Add an emergency address, and then modify the location for each phone number.
- C. Add an emergency address, and then modify the outbound calling setting for each user.
- D. Create a calling policy and assign the policy to each user.

Correct Answer: B

Section:

Explanation

Explanation/Reference:

QUESTION 8

Your company has a Microsoft 365 subscription that uses Phone System and Calling Plans.

You plan to implement a toll phone number for the helpdesk.

You need to implement the following call features for the helpdesk phone number:

- Must include a greeting and hold music
- Must bypass menu options when a call is established to the helpdesk

What two resources should you create? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. a call queue
- B. a call park
- C. an auto attendant
- D. a resource account
- E. a calling policy

Correct Answer: AD

Section:

Explanation

Explanation/Reference:

QUESTION 10

Your company has a Microsoft 365 subscription.

You need to create an auto attendant from the Microsoft Teams admin center.

Which object must be associated to the auto attendant?

- A. a conferencing bridge
- B. a shared mailbox
- C. a Calling Plan

D. a resource account

Correct Answer: D

Section:

Explanation

Explanation/Reference:

Reference:

<https://docs.microsoft.com/en-us/microsoftteams/create-a-phone-system-auto-attendant>

QUESTION 11

You plan to implement a pilot project on Phone System for 100 users.

The pilot project will use a Microsoft Calling Plan.

You need to ensure that the users can establish calls to the PSTN.

Which cmdlets should you run?

- A. Set-AzureADUserLicense, Set-CSUser, and Set-AzureADUser
- B. Grant-CsOnlineVoiceRoutingPolicy, Set-CsOnlineVoiceUser, and Set-CSUser
- C. Set-AzureADUser, Grant-CsOnlineVoiceRoutingPolicy, and Set-CsOnlineVoiceUser
- D. Set-AzureADUserLicense, Set-CsOnlineVoiceUser, and Set-CSUser

Correct Answer: D

Section:

Explanation

Explanation/Reference:

Explanation:

A Microsoft Calling plan requires an additional license. The three cmdlets in this answer assign a phone system license to the user, assigns a phone number to the user and enables the user for Enterprise Voice.

QUESTION 18

Your company has a Microsoft 365 subscription.

A user invites an external user to join a Microsoft Teams meeting by using a Microsoft Outlook meeting invitation.

The external user cannot join the meeting.

You need to ensure that all external users can join Microsoft Team meetings.

What should you do from the Microsoft Teams admin center?

- A. From Guest access in the Org-wide settings, set Allow guest access in Microsoft Teams to **On**.
- B. Edit the Meeting settings and set Anonymous users can join a meeting to **On**.
- C. Edit the global meeting policy and set Allow scheduling private meetings to **On**.
- D. Edit the live events policy and set Who can join live events to **Everyone**.

Correct Answer: B

QUESTION 19

HOTSPOT

Your company has a Microsoft 365 subscription that uses Phone System.

You need to configure the environment to meet the following requirements:

Only users in the company's sales department must have **Call forwarding and simultaneous ringing to external phone numbers** set to **Off**.

Only users in the marketing department must have **Inbound calls can be routed to call groups** set to **Off**.

All outbound calls to the PSTN must use the auto attendant number as the caller ID.

What is the minimum number of policies that should be created? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

QUESTION 20

Your company has a Microsoft 365 subscription.

A user named User5 cannot establish call from Microsoft Teams.

You review the Microsoft Teams client for User5 and discover that the dial pad is unavailable.

Other users at the company can establish calls successfully.

You need to ensure that User5 can establish calls.

Which two actions should you perform? Each correct answer represents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Modify the caller ID properties of User5.
- B. Assign a Phone System license to User5.
- C. Assign a SIP address to User5.
- D. Assign an app setup policy to User5.
- E. Enable User5 for Enterprise Voice.

Correct Answer: BE

QUESTION 30

DRAG DROP

Your company has a Microsoft 365 subscription that uses Microsoft Teams.

The company has a team named Customer Support.

Guest users from outside the company regularly access the Customer Support team.

You need to configure the Guest access settings to meet the following requirements:

Guest users must be able to view only a single application during screen sharing sessions.

Guest users must be prevented from creating channels in Customer Support.

Guest users must be admitted to meetings manually.

Which settings should you configure for each requirement? To answer, drag the appropriate settings to the correct requirements. Each setting may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

Select and Place:

Settings

- Guest access to Org-wide settings
- Meeting policies
- Meeting settings
- Settings for the Customer Support team

Answer Area

Guests must only be able to view a single application in screen sharing sessions

Guests must be prevented from creating channels in Customer Support

Guest users must be admitted to meetings manually

Correct Answer:

Settings

- Guest access to Org-wide settings
- Meeting policies
- Meeting settings

Manage Calling and Meetings

Testlet 2

Case study

This is a case study. **Case studies are not timed separately. You can use as much exam time as you would like to complete each case.** However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study.

At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section.

To start the case study

To display the first question in this case study, click the **Next** button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. If the case study has an **All Information** tab, note that the information displayed is identical to the information displayed on the subsequent tabs. When you are ready to answer a question, click the **Question** button to return to the question.

Overview

Contoso, Ltd. is a pharmaceutical company that has 3,000 users in offices across North America.

Existing Environment

Active Directory

The network contains an on-premises Active Directory domain. All user accounts are in departmental organizational units (OUs).

Microsoft Office 365

All users are assigned a Microsoft Office 365 E5 license and are enabled for the following services:

- Microsoft Yammer
- Microsoft Exchange Online
- Microsoft SharePoint Online
- Microsoft OneDrive for Business
- Azure Active Directory (Azure AD)
- Azure AD dynamic group membership

Microsoft Skype for Business

Contoso has an on-premises deployment of Microsoft Skype for Business Server 2015. All the latest cumulative updates are installed on all the servers. The following services are used in Skype for Business Server 2015:

- Meetings
- PSTN calling
- Instant messaging (IM)
- Federation to external companies

Departments

Contoso has the following departments:

IT
Sales
Human resources (HR)
Research and development (R&D)

All groups are created by using dynamic group membership that use the department attribute.

Requirements

Business Goals

Contoso identifies the following business goals:

- Migrate the maximum number of users to Microsoft Teams.
- Minimize administrative effort.

Device Requirements

Contoso identifies the following device requirements:

- Replace Skype for Business IP phones with Microsoft Teams phones.
- All Microsoft Teams phones must be set to lock automatically after 60 seconds.

Meeting and Live Event Requirements

Contoso identifies the following meeting and live event requirements:

- Requirement1: Guest users must be able to join live events.
- Requirement2: Guest users must always wait in a meeting lobby.
- Requirement3: Contoso users must always bypass the meeting lobby when they join meetings by using the Microsoft Teams client.
- Requirement4: After the upgrade to Microsoft Teams, all meetings must be scheduled by using Microsoft Teams.

Calling Requirements

Contoso identifies the following calling requirements:

- Migrate all existing auto attendants and response groups to Office 365.
- Minimize the on-premises PSTN infrastructure.

Technical Requirements

Guest users must be prevented from making private calls.

Security Requirements

Contoso has the following security requirements for the Microsoft Teams deployment:

- The number of ports allowed on the company's firewall must be limited.
- Team names must be prevented from containing the name of any products produced by Contoso.
- Users in the R&D group must be prevented from sending chat messages to users in other departments.
- To meet the company's compliance policy, users in the sales department must continue to use on-premises Skype for Business for IM and calling only.

Pilot Project

Contoso begins a pilot project for the upgrade to Microsoft Teams.

You identify the following issues during the pilot project:

- Microsoft Teams users report that they often receive continuous notifications from the Microsoft Teams client for 20 minutes.
- Two pilot users in the HR department report that they are not members of the HR team.

QUESTION 1

You need to configure the environment to meet the technical requirements for guest users.

What should you modify from the Microsoft Teams admin center?

- A. the global app permission policy
- B. Guest access in Users
- C. the global meeting policy
- D. the global messaging policy

Correct Answer: B

Overview

General Overview

Litware, Inc. is an international manufacturing company that has 4,000 users. The company has the following five departments:

- IT
- HR
- R&D
- Sales
- Compliance

Physical Locations

Litware has two main offices. The offices are located in New York and London.

All offices connect to each other by using a WAN link. Each office connects directly to the Internet.

Existing Environment

All user accounts have an Azure Active Directory Premium Plan P1 license.

Litware has a Microsoft 365 subscription that has Office 365 Enterprise E3 licenses for all users. All the E3 products and services are enabled for each user.

Litware uses Microsoft Skype for Business Online.

Requirements

Planned Upgrade

Litware identifies the following requirements for a planned upgrade from Skype for Business Online to Microsoft Teams:

- Provide high quality audio, video, and online meeting experience for Microsoft Teams end users.
- Implement a data retention solution in Microsoft Teams.

Minimize costs and administrative effort.
Use the principle of least privilege.

For the sales department, Litware plans to create a team that dynamically updates its membership when users leave and join the department.

Department Upgrade Requirements

Litware plans to implement upgrade requirements for the departments as shown in the following table.

Department name	Requirement
Sales	Must use Microsoft Teams and Skype for Business. Must receive incoming chats and calls by using the same client that initiated the communication.
HR	Must use Microsoft Teams for collaboration and meetings. Must maintain Skype for Business as the preferred client for chat and calling.
IT and R&D	Must use only Microsoft Teams for chat, meetings, calling, and collaboration.

Microsoft Teams Requirements

All teams must meet the following requirements:

Only users in a partner company that uses a domain named fabrikam.com must be able to collaborate in teams by using guest accounts.
Only users in the compliance department of Litware must be able to create teams.

Planned Network Tasks

Litware identifies the following network validation tasks:

An administrator named Admin5 must be able to review the required bandwidth to support audio conferencing, video conferencing, and screen sharing in Microsoft Teams.
An administrator named Admin6 must be able to review network issues that cause poor call quality reported by users.

Data Retention Requirements

Litware identifies the following data retention requirements:

Requirement1: All messages in team collaborations must be deleted after seven years.
Requirement2: All files used in team collaborations must be retained for five years.
Requirement3: All files used in personal chats must be retained for five years.

Device Requirements

You provide Microsoft Teams-certified IP phones to users in the IT and R&D departments. Each device must meet the following requirements:

The time zone on the phones used by the R&D department must be set to UTC-8.
The time zone on the phones used by the IT department must be set to UTC-5.

All the phones must lock automatically after 60 seconds of inactivity.

Voice Pilot Requirements

Litware wants to pilot Phone System as a calling solution for 20 IT department users. The pilot project will receive phone numbers from Microsoft.

Collaboration and Meeting Requirements

Litware identifies the following collaboration and meeting requirements:

Cloud recording must be disabled for all Microsoft Teams meetings organized by users in the HR departments only.

Meeting email invitations must be customized to include the Logo URL, Legal URL, and Help URL of Litware.

QUESTION 1

You need to configure Microsoft Teams to meet the collaboration and meeting requirements.

Which two actions should you perform from the Microsoft Teams admin center? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Modify the Meeting settings.
- B. Create a team's policy.
- C. Create a meeting policy.
- D. Create a live events policy.
- E. Modify the Teams settings.

Correct Answer: AC

Section:

Explanation/Reference:

Monitor and Troubleshoot a Microsoft Teams Environment

Question Set 1

QUESTION 1

You have a Microsoft 365 subscription that uses Microsoft Teams and contains a user named User1.

User1 reports that the Meeting recording button is missing from the Microsoft Teams client. The user cannot record meetings.

You need to ensure that User1 meets the prerequisites to record Microsoft Teams meetings.

What should you do?

- A. From the Microsoft Teams admin center, use the Call Quality Dashboard (CQD).
- B. From the Microsoft Teams admin center, use Teams advisor.
- C. From the Microsoft 365 admin center, enter **Diag: Missing Recording** in the Need help? search box.
- D. From the Microsoft 365 admin center, enter **Diag: Meeting Recording** in the Need help? search box.

Correct Answer: D

Section:

QUESTION 2

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company has 10 offices in North America and Europe.

The company has 5,000 users.

You plan to deploy Microsoft Teams for all the users.

You run a pilot project for the planned deployment.

You need to identify the network packet loss from the pilot computers to Microsoft Teams during calls.

Solution: You run the Network Testing Companion.

Does this meet the goal?

- A. Yes
- B. No

Correct Answer: B

Section:

Explanation

Explanation/Reference:

QUESTION 4

HOTSPOT

Your company has a Microsoft 365 subscription.

You need to review the following information:

The Rate My Call (RMC) data provided by users.

The number of Microsoft Teams live event views from the past three months.

What should you use to view the information? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

The Rate My Call data provided by users:

	▼
Analytics & reports in the Microsoft Teams admin center	
Call History in the Microsoft Teams admin center	
Microsoft Call Quality Dashboard	
Microsoft Office 365 usage Analytics	

The number of Microsoft Teams live event views from the past three months:

	▼
Analytics & reports in the Microsoft Teams admin center	
Call History in the Microsoft Teams admin center	
Microsoft Call Quality Dashboard	
Microsoft Office 365 usage Analytics	

Correct Answer:

Answer Area

The Rate My Call data provided by users:

	▼
Analytics & reports in the Microsoft Teams admin center	
Call History in the Microsoft Teams admin center	
Microsoft Call Quality Dashboard	
Microsoft Office 365 usage Analytics	

The number of Microsoft Teams live event views from the past three months:

	▼
Analytics & reports in the Microsoft Teams admin center	
Call History in the Microsoft Teams admin center	
Microsoft Call Quality Dashboard	
Microsoft Office 365 usage Analytics

QUESTION 5

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company has 10 offices in North America and Europe.

The company has 5,000 users.

You plan to deploy Microsoft Teams for all the users.

You run a pilot project for the planned deployment.

You need to identify the network packet loss from the pilot computers to Microsoft Teams during calls.

Solution: From the Microsoft Teams admin center, you run the Network Planner.

Does this meet the goal?

- A. Yes
- B. No

Correct Answer: B

Explanation/Reference:

QUESTION 6

You have a Microsoft 365 subscription that contains a user named User1.

User1 experiences audio issues while sharing his screen during Microsoft Teams meetings.

You need to investigate whether the headset of User1 causes the issues.

Which report should you use?

- A. Media reliability metrics
- B. Customer endpoint information support
- C. Quality of Experience
- D. Failure Drill Down

Correct Answer: C

QUESTION 7

You have a Microsoft 365 subscription that uses Microsoft Teams and contains a user named User.

You need to ensure that User1 can investigate call-quality issues and identify the following types of information:

- Caller and recipient names
- Device names and IP addresses
- The number and names of all meeting participants

The solution must use the principle of least privilege.

Which role should you assign to User1?

- A. Teams Device Administrator
- B. Teams communication support engineer
- C. Teams Administrator
- D. Teams communication admin

Correct Answer: B

QUESTION 8

You have a Microsoft 365 E5 subscription.

You need to generate a report that provides the following information:

- How many users post and reply to channel messages
- The number of ad hoc meetings organized by a user
- The number of meetings a user has participated in
- The total video time of a user

Which report should you run?

- A. Teams user activity
- B. Teams usage
- C. Teams live event usage
- D. Teams app usage

Correct Answer: A

QUESTION 9

HOTSPOT

You have a Microsoft 365 subscription that uses Microsoft Teams and contains the users shown in the following table.

Name	Role
Admin1	Global Administrator
Admin2	Teams Administrator

You have a team named Project1 that contains the members shown in the following table.

Name	Role
User1	Owner
User2	Member

You need to monitor Project1 for the following administrative actions:

- The creation and deletion of channels
- Changing the role assignments of team members

Which users can monitor Project1, and which feature should the users use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Feature:

	▼
Audit log	
Usage reports	
Teams advisor	
Content search	
Message center	

Users:

	▼
User1 only	
Admin1 only	
Admin2 only	
Admin1 and Admin2 only	
User1, Admin1, and Admin2	

Correct Answer:

Answer Area

Feature:

	▼
Audit log	
Usage reports	
Teams advisor	
Content search	
Message center	

Users:

	▼
User1 only	
Admin1 only	
Admin2 only	
Admin1 and Admin2 only	
User1, Admin1, and Admin2

QUESTION 10

You have a Microsoft 365 subscription that uses Microsoft Teams.

A user reports an error when he attempts to share his screen during meetings by using the Microsoft Teams Windows Desktop client.

You need to collect the Microsoft Teams client log files from the user's device.

What should you do?

- A. From the Microsoft Teams client settings, select **Disable GPU hardware acceleration**.
- B. Select **Ctrl + Alt + Shift + 1**.
- C. Select the **Windows logo key + Alt + Shift +1**.
- D. From the Microsoft Teams client settings, select **Enable logging for meeting diagnostics**.

Correct Answer: B

QUESTION 11

Users report poor quality during Microsoft Teams audio conferences.

You run a network trace during an audio conference from a user's device as shown in the following exhibit.

Frame Details:	X
Checksum: 0 (0x0)	
SourceAddress: 10.10.10.110	
DestinationAddress: 52.114.188.31	
0-Tcp: Flags=...A...., SrcPort=50008, DstPort=HTTPS(443), PayloadLen=0,	
SrcPort: 50008	
DstPort: HTTPS(443)	
SequenceNumber: 4077031237 (0xF3028F45)	
E AcknowledgementNumber: 223214542 (0xD4DFD5E)	
E B DataOffset: 80 (0x50)	
O Flags: ...A	
Window: 1025 (scale factor 0x8) = 262400	
Checksum: 0x524, Disregarded	
UrgentPointer: 0 (0x0)	

What causes the poor quality of the audio conferences?

- A. The source port range for audio is too narrow.
- B. The source port for audio is above 50,000.
- C. The UDP traffic is being limited.
- D. The TLS traffic is being limited.

Correct Answer: C

QUESTION 12

Your company has a Microsoft 365 subscription.

All users have a computer that runs Windows 10 and has Microsoft Teams installed.

A user reports the following issues:

- Users lose their connection during screen sharing.
- The user selection process takes too long to complete.
- The Microsoft Teams client crashes and restarts automatically.

You need to view the Microsoft Teams debug logs to troubleshoot the issues.

What should you do?

- A. From the Microsoft Teams client, select **F1**. Open the ETL files in the **%Appdata%\Microsoft\Teams** folder.
- B. From the Microsoft Teams client, select **Ctrl+Alt+Shift+1**. Open the log files in the **%Userprofile%\Downloads** folder.
- C. From Event Viewer, open the Application log and filter the log for a keyword of MSTeams.
- D. Right-click the Microsoft Teams icon in the application tray, and then select **Get logs**. Open Logs.txt in the **%Appdata%\Microsoft\Teams** folder.

Correct Answer: B

QUESTION 13

HOTSPOT

You open the **Microsoft Call Quality Dashboard** as shown in the following exhibit.

All Audio Streams

This Report shows the monthly audio streams count, poor count, and poor ratio for the last 7 months. There are no filters applied so the data reflects all the call data that was captured by the Service. Audio calls made over wireless and external networks can cause poor call rates to go up.

Edit Clone ...

Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

During the month of July 2019, [answer choice] calls were established successfully.

QUESTION 15

HOTSPOT

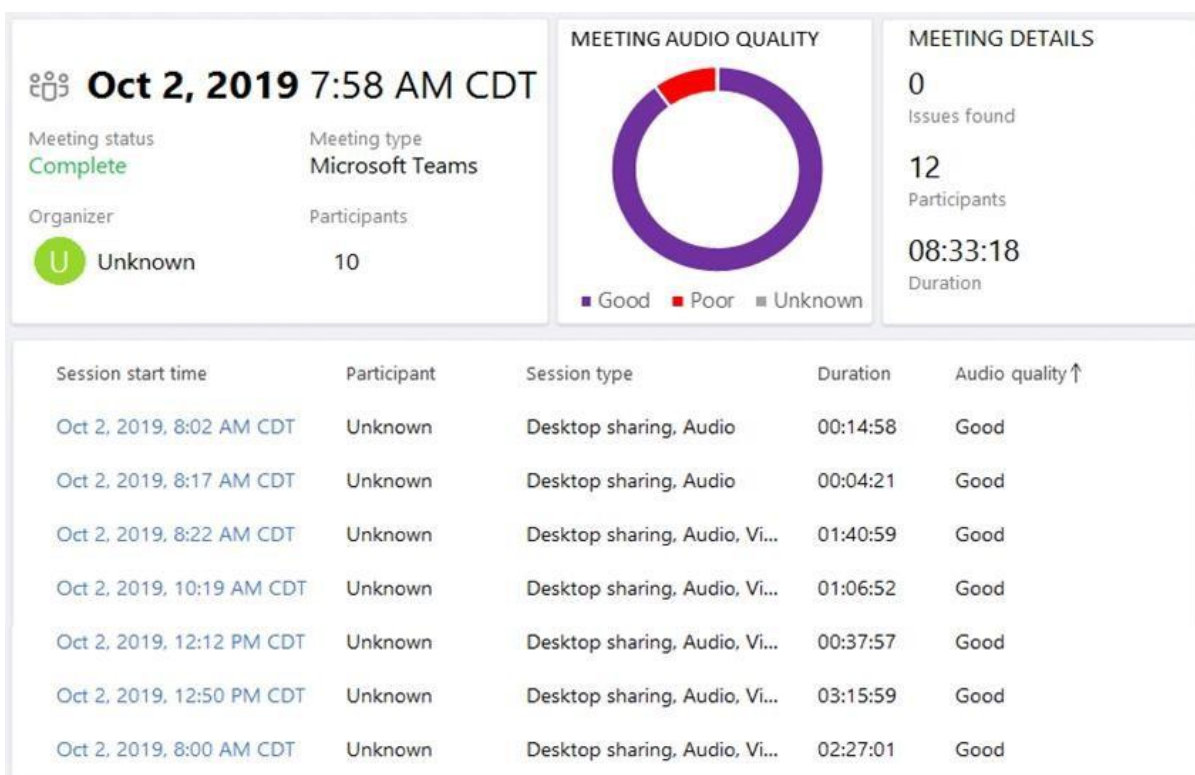

Your company has a Microsoft Office 365 subscription.

A user reports that a conference call on October 2 had poor audio quality.

You view the call history as shown in the Call History exhibit. (Click the **Call History** tab.)

Account	Voice	Call history	Policies				
Start time	When	Participants	Duration	Activity type ↓	Client	Audio quality	
Oct 2, 2019, 7:58 AM CDT	yesterday	 12 Participants	08:33:18	Conference	Microsoft Teams	Poor	
Oct 1, 2019, 7:15 AM CDT	2 days ago	 10 Participants	10:08:14	Conference	Microsoft Teams	Poor	
Sep 30, 2019, 2:25 PM CDT	3 days ago	 1 Participant	00:02:46	Conference	Skype for Business	Good	
Sep 30, 2019, 10:30 AM CDT	3 days ago	 1 Participant	00:01:06	Conference	Microsoft Teams	Good	
Sep 30, 2019, 7:11 AM CDT	3 days ago	 10 Participants	09:46:12	Conference	Microsoft Teams	Good	
Sep 27, 2019, 9:45 AM CDT	6 days ago	 17 Participants	03:25:28	Conference	Microsoft Teams	Good	

You view the call analytics as shown in the Call Analytics exhibit. (Click the **Call Analytics** tab.)

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Statements	Yes	No
On October 2, all participants experienced good quality audio during the conference call.	<input type="radio"/>	<input type="radio"/>
On October 2, some participants on the conference call were external users.	<input type="radio"/>	<input type="radio"/>
The organizer of the October 2 meeting is a user at the company.	<input type="radio"/>	<input type="radio"/>

Correct Answer:

Answer Area

Statements	Yes	No
On October 2, all participants experienced good quality audio during the conference call.	<input type="radio"/>	<input checked="" type="radio"/>
On October 2, some participants on the conference call were external users.	<input type="radio"/>	<input checked="" type="radio"/>
The organizer of the October 2 meeting is a user at the company.	<input checked="" type="radio"/>	<input type="radio"/>
